- 2.10 Kia iAVN 2018 Update
- 2.11 Creating the Map Data folder
- 2.12 Verifying Map Data files

2. Preparing the Service Tool Kit (STK)

2018 system software and map updates have been made available as download to you.

As highlighted in the Download Manual, each platform is split into Software and Map data. The software needs to be copied to a media (SD Card or USB stick) one time only. After copying the software to the media, you may delete the files from your computer.

2018 Map data files need to stay on your computer and copied to vehicle's SD card for every update.

The process is universal for all navigation platforms.

1. Download the files
2. Extract the files to your hard drive
3. Copy the files to SD card or USB stick

2.1 Media carriers

We suggest to create 3 different media carriers:

- One SD card containing
 - Gen 2.0 2018 System Software
 - Gen 4.x 2018 System Software
 - iAVN 2018 System Software
- One USB stick containing Kia Gen 1.x 2018
